FACIAL CLEANSING HYDRO GEL

Anti-aging and Rejuvenation Formula

FACIAL CLEANSING HYDRO GEL

✓ Anti-aging and Rejuvenation Formula

- Work as a humectant agent so absorb water to keep your skin hydrated and healthy.
- Moisturize your skin for a youthful and glowing appearance.

- Rebuild and restore the protective barrier of the skin and block environmental damage.
- Improve skin complexion and makes it less susceptible to skin problems
- Moisturize the skin and gives it a firm and intact glow.

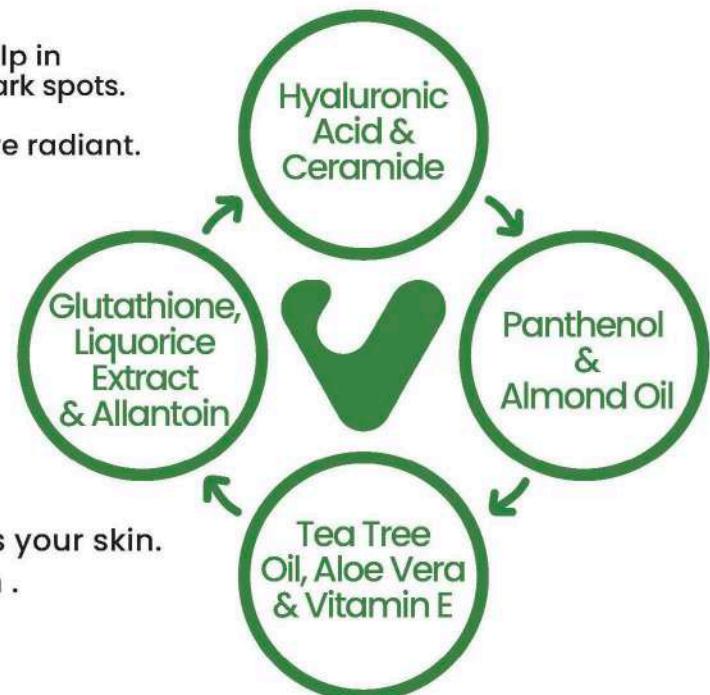

FACIAL CLEANSING HYDRO GEL

✓ Brightening & unification of skin tone

- A mild keratolytic agent that helps in resurfacing your skin.
- Lightens skin tone and help in reducing acne scars and dark spots.
- Skin is smoother and more radiant.

- A formula that hydrates and rejuvenates your skin.
- Improve the skin barrier and complexion .
- Rich with hyaluronic acid and ceramide which are essential skin needs.
- Unify the skin tone.
- suitable for sensitive skin
- Effectively removes impurities for all skin types.

VACATION PURE TOUCH SUNSCREEN GEL

VACATION PURE TOUCH SUNSCREEN GEL

Hydrates and protects combined and oily skin

Hyaluronic acid

Hyaluronic Acid

Neossance® Squalane

1. Deeply hydrates and moisturize the skin without clogging the pores.
2. Gives you a healthy and glowing skin complexion.

Kaolin

1. It removes excess oils, dirt and impurities so reduce clogging of pores that lead to acne breakouts.
2. Gives a matte finish.

Alpha-Arbutin

Brightenyl

Liquorice Extract

Vitamin C

1. Inhibit tyrosinase enzyme, leading to reduction in melanin synthesis.
2. Reduce dark spots and unify the skin tone.
3. Illuminates the skin.

Niacinamide

1. Help in regulating oil production.
2. promote production of ceramides, elastin and helps build keratin, so keeps your skin firm and healthy.

2. Increase the elasticity of the skin.
3. Enhance the texture and complexion of the skin.
4. Minimizes fine lines and wrinkles

Aloe Vera

Allantoin

Tea tree oil

1. Gives super soothing effect on the skin.
2. Hydrates the skin.
3. Has anti-bacterial effect.

Face

Body

Sensitive Areas

- Works on **all types of hyperpigmentation** and unification of skin tone.
- **Deeply** Hydrates, nourish and rejuvenate the skin.
- **Sooth and calm** the skin.
- **Light** formula with **fast** absorption.

VACATION WHITENING CREAM

NATURAL SKIN LIGHTENING AGENTS

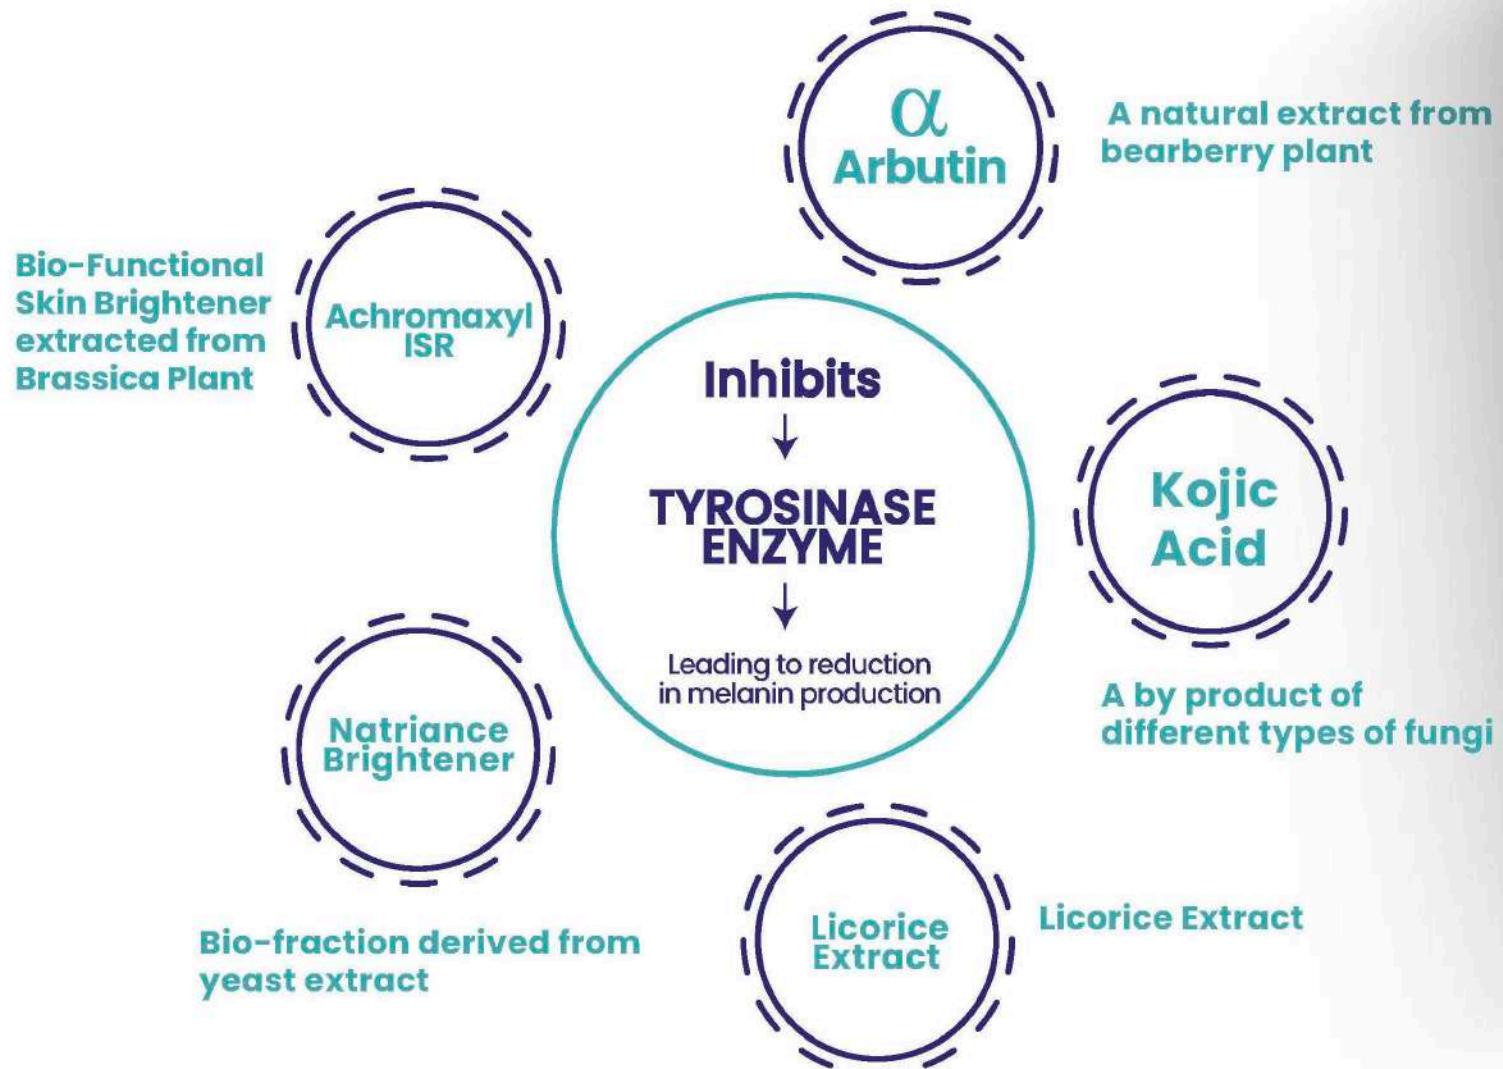

majestic®
biopharma

VACATION WHITENING CREAM

✓ NATURAL SKIN LIGHTENING AGENTS

Lighten visible sun damage, age spots, PIH & Melasma

VACATION WHITENING CREAM

✓ ANTI-AGING PROPERTIES

A Strong antioxidant that protect your skin from damage caused by free radicals

Has an Essential role in strengthening skin, as well as in elasticity and hydration and so delay the aging and appearance of wrinkles

- ♥ Whitening and Unifying Skin Tone
- ♥ Fights your Skin dark spots

VACATION FACIAL CLEAR CREAM

For acne prone skin

Fights the main causatives of acne by:

Controls oily skin

- Decreases number of active sebaceous glands.
- Reduces sebum secretion.
- Has antimicrobial properties.

Exfoliates The Skin

- Works as Keratolytic agents that help the skin layers to bind moisture.
- Open clogged pores and exfoliate the skin.
- Removes Dead cells resulting in a clear skin surface.

Purifies Skin Pores

- Powerful antimicrobial agent.
- Has anti-inflammatory properties.

Avoids Bacterial Acne

- ♥ Anti-microbial and anti-inflammatory agents.
- ♥ Together with tea tree oil give synergistic effect against acne caused by bacteria.

Unifies skin Tone

- ♥ Reduce melanin production so help in reduction of hyperpigmentation.
- ♥ Reduces acne scars.

VACATION FACIAL CLEAR CREAM:

- ♥ Balance of sebum secretion.
- ♥ Reduction of clogged pores.
- ♥ Exfoliation and removal of dead cells.
- ♥ Significant antibacterial and anti-inflammatory actions
- ♥ Reduction of acne scarring.
- ♥ Improvement of skin tone.

Application:

To be applied once or twice on clean skin at evening.

 SKIN
REFINER

NIACINAMIDE 10% SERUM

FOR ALL SKIN TYPES

 majestic biopharma®

SIGNIFICANT PORE REFINING

NIACINAMIDE 10%

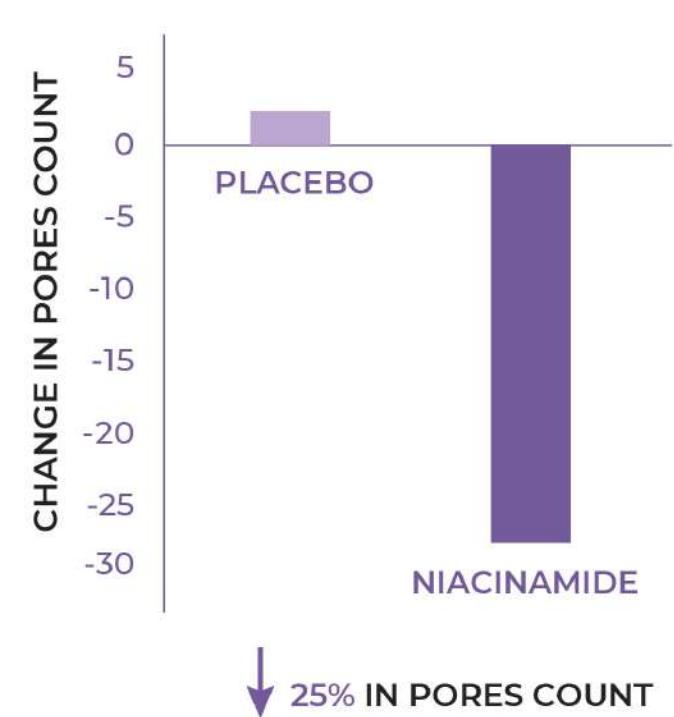

An amide of vitamin B3 (niacin), a hydrophilic endogenous substance that ↓ Sebaceous lipogenesis

IN 8 WEEKS

Minimizes Enlarged Pores
Reduces Pores Count

Reduces
Comedones

- Randomized, double blind, Placebo controlled, split face, comparative trial on 25 healthy candidates.
- Measurements done using VISIA Complexion analysis system.

Zn PCA ——> Effective Sebum Regulator

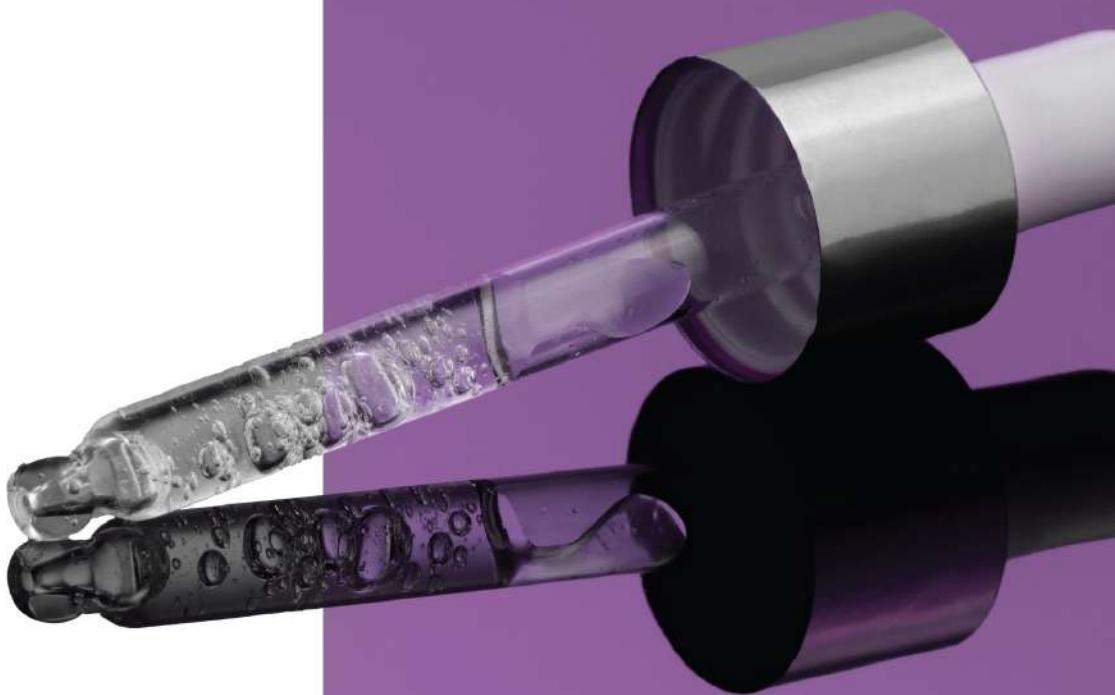

- Zinc is one of the essential elements for any living body which decreases sebum secretion and inflammations with bacteriostatic effects.
- PCA (pyrrolidone carboxylic acid) is similar in composition to NMF and is added to Zn to enhance its solubility and bioavailability.

Allantoin ——> Soothing & Skin Replenishing Effect

- Found in many plants particularly in the leaves and roots of comfrey.

Salicylic Acid ——> Exfoliation & Astringent Effect

- A beta hydroxy acid that has been used for many years in medicine, consists of a small, lipophilic molecule, causing a rapid and free penetration into the epidermis.

NIACINAMIDE 10%

SERUM

SKIN REFINER

FOR ALL SKIN TYPES

INDICATIONS:

- Daily routine for acne prone oily skin.
- Wide pores and oily appearance.
- Accelerates acne treatment.
- Post acne routine for skin refinement.

APPLICATION:

Twice daily, take 3:5 drops on fingertips, apply on the dry and clean skin with gentle circular massage.

■ STABLE
BRIGHTENER

VITAMIN C 10% SERUM

FOR ALL SKIN TYPES

majestic biopharma®

INTENSE STABLE BRIGHTENER

Diethyl Ascorbic Acid

3-O-ethyl Ascorbic Acid

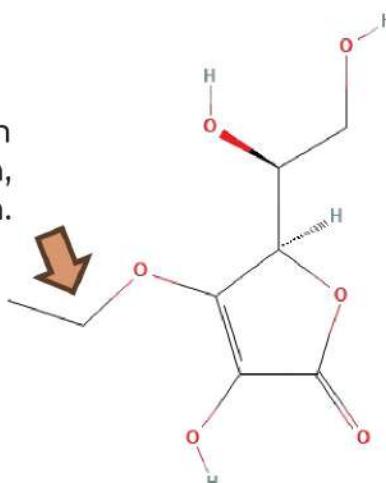

STABILITY

Ethyl group at the third carbon position protects the 3-OH group from ionization, and thus the molecule from oxidation.

PENETRATION

Penetrates the skin better and faster, without irritation.

Stability, transdermal penetration, and cutaneous effects of ascorbic acid and its derivatives

Topically applied antioxidants exert their benefits by offering protection from damaging free radicals and over-the-counter cosmeceuticals incorporating antioxidants are among the most popular anti-aging products available. One potent antioxidant of particular note, vitamin C, has been extensively utilized because it possesses a variety of other cutaneous benefits including photoprotection from UV A & B, neocollagenesis, inhibition of melanogenesis and improvement of a variety of inflammatory skin disorders.

However, the instability of this water-soluble vitamin, together with difficulties associated with its topical delivery, has presented issues for the formulation chemist. This article reviews the scientific data and clinical studies that underpin the stability, percutaneous absorption, and cutaneous effects of vitamin C together with its commonly utilized, commercially available derivatives.

INTENSE STABLE BRIGHTENER

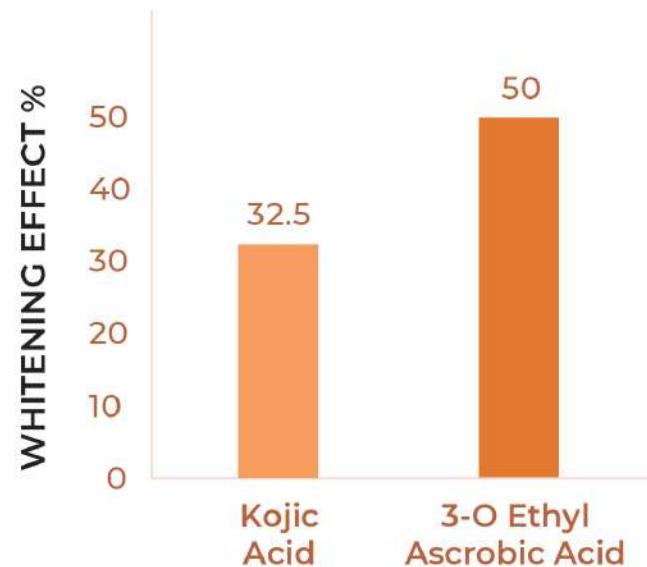

Diethyl Ascorbic Acid

3-O-ethyl Ascorbic Acid

BRIGHTENING

Penetrates the skin better and faster, without irritation.

40% MORE POTENT THAN KOJIC ACID

Use of topical ascorbic acid and its effects on photodamaged skin topography

ABSTRACT

Objective: To determine the efficacy of topical ascorbic acid application in treating mild to moderate photodamage of facial skin using an objective, computer-assisted image analysis of skin surface topography and subjective clinical, photographic, and patient self-appraisal questionnaires.

Design: A 3-month, randomized, double-blind, vehicle-controlled study.

Setting: Facial plastic surgery private practice.

Patients: Nineteen evaluable volunteer sample patients aged between 36 and 72 years with Fitzpatrick skin types I, II, and III who were in good physical and mental health with mild to moderately photodamaged facial skin were considered for analysis.

THE POWER
OF 5

HYALURONIC 3% SERUM

FOR ALL SKIN TYPES

majestic biopharma®

INTENSE SKIN HEALER

IN 6 WEEKS

**THE
POWER OF** 

Intense & Sustained Hydration

↑ 55% Sustained Hydration
64% Skin Smoothness

Instant Plumpness & Rejuvenation.

↑ 134% Instant Hydration
60% Plumpness

Strengthens Skin Barrier Functions

↓ 31% Fine Lines
14% Wrinkles

Efficacy Evaluation of a Topical Hyaluronic Acid Serum in Facial Photoaging

Introduction: Hyaluronic acid (HA) acts as a biologic humectant, thus retaining water in the skin, making HA useful as a topical moisturizing ingredient. The goal of the research was to evaluate the ability of a HA facial serum to deliver skin benefits.

HYALURONIC ACID TYPES

• • • THE
POWER OF **5**

HA*

- High molecular weight.
- Retained on epidermis.
- Creates a protective film that prevents water loss.

Hydrolyzed HA

- Intermediate molecular weight.
- Stored in connective tissues.
- Prevents water evaporation.

Sodium Hyaluronate

- HA salt, more stable.
- Low molecular weight.
- Penetrates deeper into epidermis to the base of the corneal structure.

Sodium Hyaluronate Crosspolymer

- Low molecular weight salt.
- More stable.
- Prolonged action.

Sodium Acetylated Hyaluronate

- Absorbs 3x more water than regular HA.
- Inhibits the release of MMP-1 which degrades Collagen.

* HA= Hyaluronic Acid

HYALURONIC 3% SERUM

FOR ALL SKIN TYPES

INDICATIONS:

- Daily routine for pale, brittle and dehydrated skin.
- Daily skin booster for rejuvenation.

APPLICATION:

Take 2:3 drops with the dropper on the fingertips, apply on the skin with gentle circular massage.

Efficacy Evaluation of a Topical Hyaluronic Acid Serum in Facial Photoaging

Introduction: Hyaluronic acid (HA) acts as a biologic humectant, thus retaining water in the skin, making HA useful as a topical moisturizing ingredient. The goal of the research was to evaluate the ability of a HA facial serum to deliver skin benefits.

Single-site study enrolling 40 females 30–65 years

- Assessments performed at baseline, immediately after application, and at weeks 2, 4, and 6
- Facial swabbing and photography were performed at the same intervals on a subset of 15 subjects

 INTENSE
NIGHT SERUM

RETINOL 1% SERUM

FOR ALL SKIN TYPES

 majestic biopharma®

POTENT ANTI-AGING EFFECTS

RETINOL 1%

A fat-soluble vitamin of Vitamin A family, also known as "Vitamin A1"

Reduces The Appearance Of Wrinkles & Fine Lines

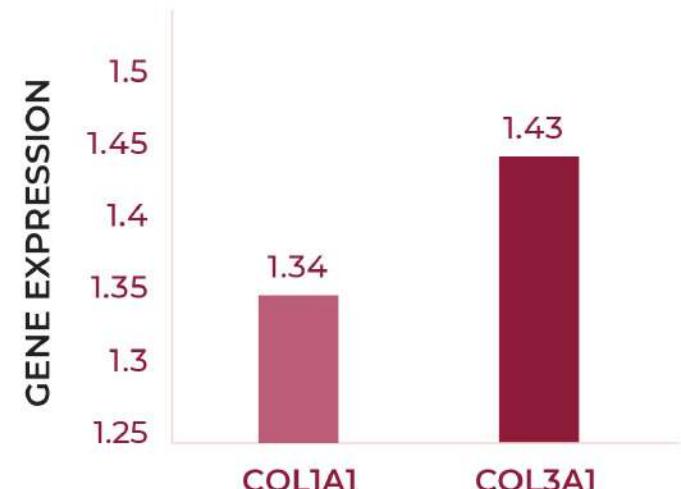

- ↓ 28% Wrinkles score in 4 weeks
↓ 38% Wrinkles score in 12 weeks

IN 4 WEEKS

Increases Collagen Production & Inhibits Collagenase

↑ 134% Collagen Type 1 Gene Expression
↑ 143% Collagen Type 3 Gene Expression

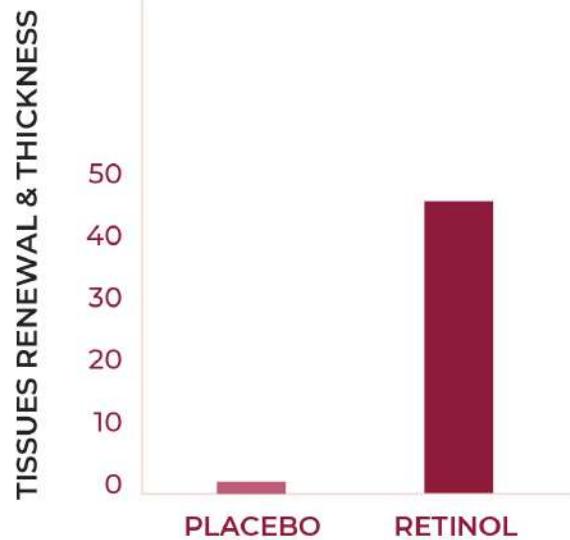

POTENT ANTI-AGING EFFECTS

Boosts skin renewal

↑ 46% Tissues Renewal
& Thickness

- A comparative study of the effects of retinol on histological, molecular, and clinical properties of human skin
- Skin histology was examined by staining and *in vivo* confocal microscopy
- Expression levels of skin genes and proteins were analyzed using RT-PCR and immunohistochemistry
- The efficacy of a retinol formulation in improving skin appearance was assessed using digital image-based wrinkle analysis

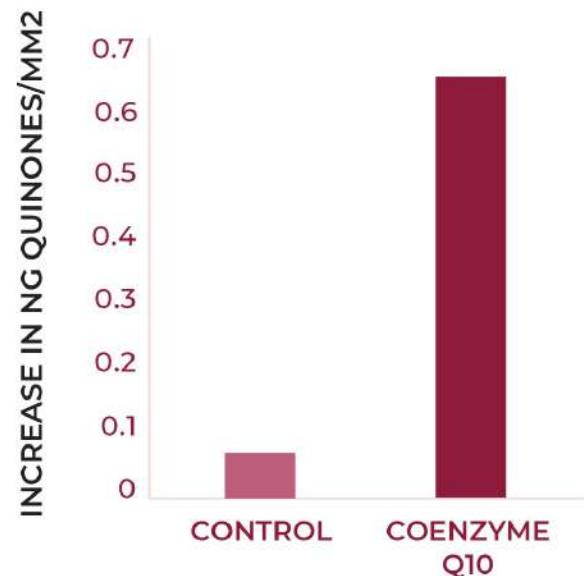

POTENT ANTI-AGING EFFECTS

IN 14 DAYS

Coenzyme Q10

- “Ubiquinone” is a naturally occurring coenzyme and an anti-oxidant produced by the human body, can also be obtained from dietary sources, such as meat, fish, seed oils and vegetables
- Potent lipid-soluble anti-oxidant
- Cellular energy Booster

↑ **7x** Folds in endogenous quinones production
37% In cellular energy metabolism

A controlled, randomized study enrolling 73 volunteers

POTENT ANTI-AGING EFFECTS

IN 12 WEEKS

Bakuchiol

- A vegan skincare ingredient found in the leaves and seeds of the Babchi plant "psoralea corylifolia"
- Potent anti-oxidant with a pronounced soothing effects
- Increases collagen production

↓ **20%** Wrinkles Depth

↓ **21%** Skin Roughness

Blind randomized clinical trial enrolling 17 volunteers

SIGNIFICANT SOOTHING

Squalane

A saturated derivative of squalene “triterpene” found in certain fish oils, especially shark liver oil and some vegetable oils.

Human sebum also contains 13% squalene as one of its major constituents

INTENSE NIGHT SERUM

FOR ALL SKIN TYPES

INDICATIONS:

- Signs of aging (wrinkles & fine lines).
- Skin renewal (post acne scars – Post injection)

APPLICATION:

At Night, take 2:3 drops with the dropper on the fingertips, apply on the skin with gentle circular massage

Avoiding exposure to sunlight and applying sunscreen the following morning is a must
